OUTDOOR

Cooler Boxes

BON APPETIT Cooler Boxes are designed to keep items cold for extended periods, making them ideal for beverages, meat, seafood, vegetables, fruits, medicines and more. These coolers are widely utilized in cold chain logistics, the catering industry, fishing, pharmaceutical transportation and various outdoor activities. Featuring rotomoulded construction, they are built to be armored and robust, withstanding repeated transportation. The coolers are equipped with Permafrost Insulation, consisting of pressure-injected commercial-grade polyurethane foam in the walls and lid. This superior insulation ensures that stored items remain cold for long durations and that your ice stays frozen longer than with polystyrene alternatives.
